

### Job Seeking - Active

Job searching with a sense of urgency to find your next Software Engineering job within 3-6 months post program.

### Job Seeking- Passive

Less urgency than Active Job Seekers. Passive Job Seekers may take 1 year to find a job, and will engage in job search activities to a lesser degree.

### Level Up

Staying at current company, perhaps to use your skills in your current role or transfer to a new role.

### Not Searching

Not searching for employment or staying at your current company.
